

# 3 QUICK STEPS TO EMPLOYMENT SUPPORT

At all appointments with new or existing patients...

## STEP 1: Gauge Interest

"Are you interested in a new or better job?"

## STEP 2: Mention Services

"PCC is offering a new program to help people interested in employment opportunities. This program can be helpful whether you are currently employed or not. Due to limited availability, services are not guaranteed, but everyone will be given helpful information about employment."

You can also provide a brochure about IPS.

## STEP 3: Refer!

Notify a Behavioral Health Consultant about the person's interest and they will refer to the program.
